THE ATTACK

BIO

The Attack brings punk back to basics; short, fast riffing songs about the social, music, and media driven politics of today. The simplicity of punk has been lost on a divided underground driven more by fashion and ruled by icons that have become the same rock stars the punk movement rebelled against in the seventies. Across the country everything Punk, from all ages shows to Facebook accounts, has become a popularity contest that defies the original intent of the alternative music scene. The Attack is ruled by a DIY ethos and driven by a goal to re-unite the punks and skins and hardcore kids under the same underground flag. The Attacks lyrics are true shot from all sides anthems. The Attack never panders to one political party or music scene forming an opinion, agenda and sound of its own.

FOR FANS OF

Classic, face-smashing, broken bottle punk.
